Early Learners Read Aloud Training

The Early Learners Read Aloud Training is for teachers of children 30 months to 47 months (2 ½- 3 years 11 months). It is based on the most recent scientific research and meets the needs of adult learners. Teachers come to this interactive training which provides fun, hands-on activities and ideas to immediately take back and implement in their classrooms. Participants see and discuss video segments of teachers and children in actual classrooms. The training is centered around the Early Learners Read Aloud Kit and helps teachers utilize the kit in the most appropriate and effective manner. The training is usually provided on a Saturday to accommodate childcare personnel.

This training is only available for child care and Head Start teachers.

Early Learners Read Aloud Kit includes:
- 25 Children’s picture books
- Lessons for each book with Before, During, and After Reading instructions for 1st reading and 2nd reading
- Story extensions for each reading
- Picture cards and stick puppets
- Manipulatives
Early Learners Read Aloud Training covers the following key components:

- Understand the importance of Reading Aloud to children
- Identify qualities and behaviors that make reading a positive experience for young children
- Understand how to implement read aloud lessons
- Understand how to implement extension activities
- Understand how to use the highlighted vocabulary
