

Nutrition Theme

Written Expression (Shared Writing)

Food Web

Procedure

- Draw a circle in the middle of chart paper and write the word “foods” inside the circle.
- Draw lines radiating out from the circle.
- Ask children to name all the foods they know.
- Repeat the name of the food and emphasize the beginning sound of each word and have children name the beginning letter. (e.g. Say, “Banana, (make the sound) /b/, what letter makes the /b/ sound? Right, banana begins with the letter b.”)
- Write the word banana on the web.
- Continue this process with each food word added to the web.

Extension: Have children draw pictures of their food on sticky notes. Have them attach the note next to the food name on the web.
